Executive director of Digital Assets Deployment (DAD), a business incubator of High Technology and Internet

Pedro García Guillén

Principal research
Passionate research of mathematical algorithm and the new technologies, his main research areas are Computation Theory, Topology and Geometry.

PROBLEM

Innovative technologies are costly to develop, require time and are expensive. Enterprises and Startups often, don't have the time or the resources to develop them. You can't understand the whole picture only with a single pixel information. We provide them with our AI Collective Intelligence based platform to improve their business and add value to their offering. We bootstrap them to grow faster. State of the art technology fast and efficiently.

SOLUTION

We offer Collective Artificial Intelligence services in the cloud. We offer Collective Artificial Intelligence services in the cloud. Our platform -open, bioinspired and with a collective mathematical algorithm- is based on three crucial concepts: Social Networks, Big Data and Artificial Intelligence.

TARGET MARKET

Knowdle presents new functionalities for the intelligent growth of companies under B2B in its different functions of Collective Intelligence > B4B, Intelligent...

COMPETITORS

The main competitors are other companies dedicated to the world of artificial intelligence and machine learning models

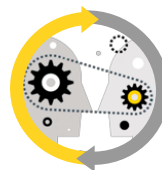

ACHIEVEMENTS/MILESTONES

- 2012: Founded
- 2014 KMG / Buaala -First launch
- 2016 Knowdlegefy (*Talentfy*)
- 2016 Discovery Shopping (*Trendy Advisor*)
- 2017 Knowdle Robotics
- 2017 Laawfy AI Technologies
- 2018 5 patents initial process Baker & McKenzie advisors

BUSINESS MODEL

Artificial Intelligence will revolutionize the way in which companies grow and compete, as it provides a totally new asset which can increase the profitability of the enterprises. We offer products and services with a high probability of success during the purchasing decision. There is no decision without motivation. Two business UNITS Product and Acceleration Program.

COLLECTIVE DECISIONS

INDIVIDUAL DECISIONS

**Every human being makes 35.000 conscious daily decisions...*

OBJECTIVE

Our goal is to accelerate businesses and startups to obtain revenues and consolidate profits. We need investment to develop the technology in other languages and be ready to launch our company globally in 2019.

WHY INVEST?

- We have already developed the platform and proven that it is fully functional
- We have a winning team
- There is a huge global opportunity with our fully functional AI platform.

"What you know that I don't know, what I know that you don't"
